

Project: M Group  
Location: Washington DC  
Designer: M Group Architects

Product: **TRADEMARK** Reclaimed Barn Siding

TRADEMARK reclaimed wall cladding is featured in this office design by M Group Architects. TRADEMARK reclaimed barn siding from the enCORE collection by reSAWN TIMBER co. features antique reclaimed barn siding that is skip planed. Skip planing is a process whereby the boards are put thru a planer set to only remove the high points, "skipping" over the low points to create contrast. The M Group Architects + Interior Architects was established in 1987 as a full-service commercial architecture firm with a simple mission: to design outstanding facilities that are functional, creative, buildable and affordable.

Since their founding, their commitment to this mission has enabled them to create an extensive portfolio of innovative projects for developers, corporations and institutions. But they offer much more than design excellence. Their clients know that they offer the peace of mind that comes from working with experienced professionals in an atmosphere of honest collaboration and timely communication. Their detail-oriented staff includes architects, interior architects and designers, enabling them to coordinate every aspect of a commercial building or interiors project.

### Wall Cladding:

**TRADEMARK** - skip planed reclaimed barn siding  
prefinished with hardwax oil on face & sides, major voids filled  
S3S

Random Thicknesses: 1/2", 3/4", & 15/16"

Random Widths: 3.5", 4.5", 5.5, 6.5", & 7.5"

Random Lengths 2-10'

### TRADEMARK

#### SOURCE:

#### Reclaimed Barn Siding - Skip Planed

TRADEMARK is mixed species reclaimed barn siding that has been skip planed and finished with a hardwax oil. Skip planing is a process whereby the boards are put thru a planer set to only remove the high points, "skipping" over the low points to create contrast. Expected a wide variety of color and generous amounts of character. This material has a textured surface. Typical character marks include mineral staining, color changes, weathering, checking, nail holes, and knots.

## STANDARD DIMENSIONS & EDGE DETAIL:

	Solid	Engineered
Thickness:	3/4"	5/8" (4 mm wear layer)
Width:	5"	5"
Random Lengths:	2'-10'	2'-10'
Edges:	Square *	Square *

Note: Additional widths and lengths available upon request.

\* Microbeveled Edges recommended for prefinished products.

## INSTALLATION GUIDE:

	Solid	Engineered
Above-grade	YES	YES
On-grade	YES	YES
Below-grade	<b>NO</b>	YES
Over Radiant Heat	YES	YES

## SUSTAINABLE ATTRIBUTES:

POSSIBLE LEED CREDITS
